

Platform Update Features

Two years in development. More proof behind your impact, and easier ways to put it in front of the people who matter to you.

20

reforestation projects with full verification and audit timelines

50,000 +

accounts gain direct access to QR-based sharing

100%

of dashboard screens rebuilt from the ground up

TRACK and SHARE YOUR IMPACT

- All 20 PrintReleaf reforestation projects now include a full verification and audit timeline
- Documentation, photos and video tours when available.

COMMERCIAL PRINT and PACKAGING

Direct access, no waiting

- Generate and manage your own PrintReleaf QR codes, directly
- No need to request through a channel partner

MANAGED PRINT SERVICES

QR codes, for the first time

- Every MPS account can now generate and use QR codes to share their impact story
- Link to your PrintReleaf profile and certificates

See more of what you already have

- Carbon impact features are now visible to every account, regardless of role or vertical
- Certificates and documents now live together in one section

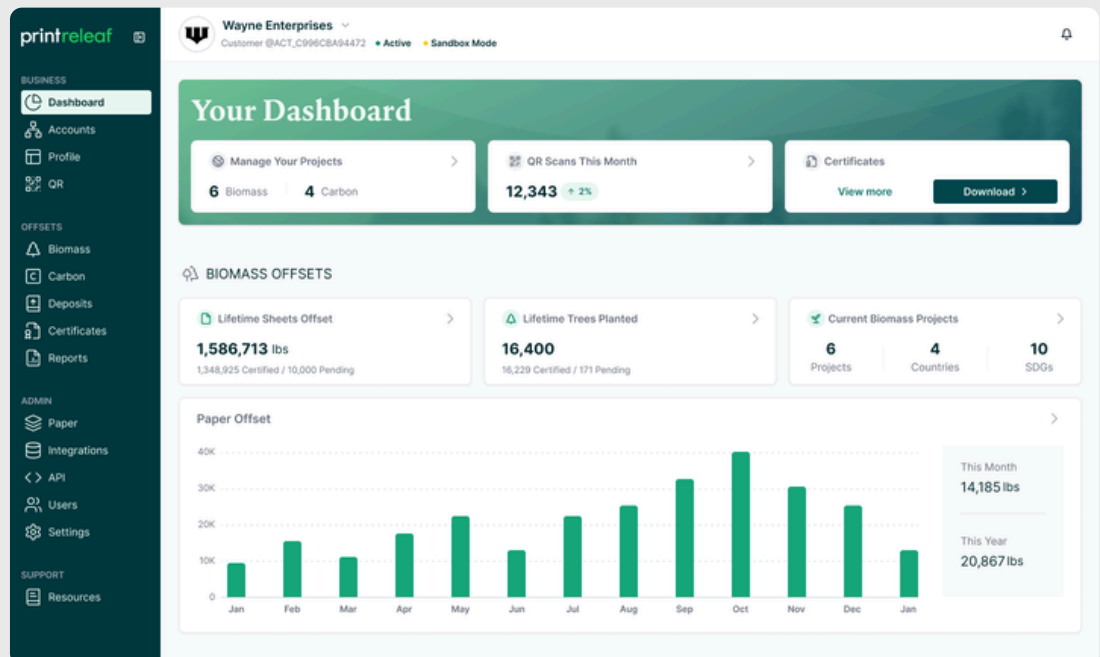

Tell a sharper story

- Select and track your preferred projects
- Certificates and documents now live together in one section

ALSO NEW ➔

- Redesigned sign-in, onboarding, account switching
- Brand new order experience
